Student - Teesside University

Personal Statement

Hey there, my name is Kieran, I'm an environment artist, studying at Teesside University, currently in my 3rd year of games art, set to graduate this summer with a passion for games. I have 5 years experience developing skills for creating game-ready 3D assets and environments within a game engine. This has allowed me to build a strong understanding of AAA pipelines used within the industry. My highlight skills include environment art, optimisation, prop creation, hard surface modeling, shader creation, photogrammetry and sculpting. I'm a very determined individual with a strong passion for building optimised, visually remarkable and immersive game worlds. See portfolio attached below:

Employment

2017 – 2020 Newspaper delivery round

I carried out a newspaper delivery round for 2 and a half years where I had to wake up early and spend an hour delivering papers for 7 days a week every morning. Over the 2 and a half years I worked I gained many different skills. I learned how to organise time and I was dedicated and determined. I rarely had a day where I could not do the round and I was always on time.

KFC – employment – July 2021 – September 2021

I worked in the kitchen at kfc on Albert road for 2 months, making orders, serving guests, working the tills and cleaning, however I did not enjoy the environment and the hours whilst I was working so I left to find a new job.

Bar/waiter staff - employment - May 2022 - December 2022

I worked in a pub called the white horse, a part of the sizzling pubs franchise. In the pub I work in the front of the house, managing the bar and delivering food out to people. Whilst doing these jobs I will also be given other smaller tasks such as clearing and cleaning tables, fixing and cleaning the menus on the tables and helping customers with anything they need. For example, customers will call me over if they have a problem with the food, questions about the pub and what kind of food I would recommend. From working at the pub I have further developed my confidence and communicating skills, whilst learning how to work much better as part of a team.

Trespass - Retail sales assistant - employment - 2022 - 2023

I worked at a clothes store named Trespass, where I gained different skills from working in a retail environment. My role included promoting different products, using the tills to serve customers, cleaning and tidying the shop floor and pricing and placing products on the shop floor. I have gained new skills such as more advanced knowledge on the use of tills, better time management and the ability to work better as a part of a team, using communication to keep the shop running smoothly and to ensure customers are satisfied when shopping.

Education

2015 – 2020 Longfield Academy, Darlington

I have recently finished secondary school and have been given my GCSE results based on my hard work over the 5 years I attended school. I did not sit my exams due to the coronavirus, however, I have achieved grades in the following subjects.

Subject	Grade	Exam
English language	6	GCSE
English literature	6	GCSE
Geography	5	GCSE
History	7	GCSE
Maths	5	GCSE
Combined science	55	GCSE
Creative imedia	L2D	GCSE

2020 – 2021 Queen Elizabeth Sixth Form College, Darlington.

I attended Queen Elizabeth Sixth Form College for one year after I finished secondary school.

Subject	Grade	Exam
Geography	B	AS-Level
Geology	E	AS-Level
Psychology	E	AS-Level

2021 - 2023 Darlington college, Darlington

UAL Level 3 Extended in Creative Practice (Games Design)

Grade - Distinction
